DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

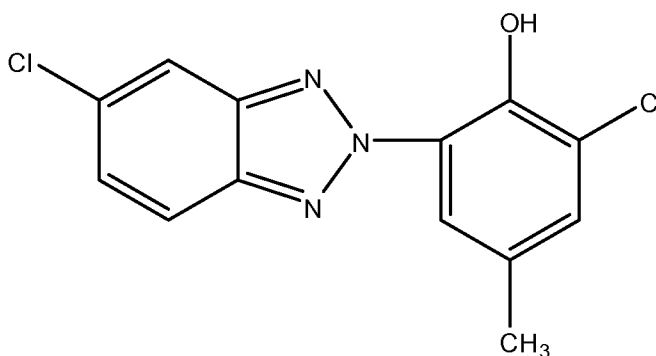

Group I, claim(s) 1-4, 7-9, and 14-17 drawn to a polymer comprising one the repeating units as recited in claim 1. Note there are two claims of claim 15.

Group II, claim(s) 5-6 drawn to a copolymer comprising one the repeating units as recited in claim 1 and other units

Group III, claim(s) 10-12 drawn to an optical device comprising electroluminescent device having a configuration as recited in claim 12

Group IV, claim(s) 13 and 18 drawn to monomers for making polymers as recited in claim 1.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is monomer recited in claim 13. This element cannot be a special technical feature under PCT Rule 13.2 because the element is shown in the prior art. **Wood et al. (US 6451887)** listed on IDS discloses a species of the following structure that reads on formula (V) as recited in claim 13 (6: 20-55):

Should Group I (claims 1-4, 7-9, and 14-17) is elected, applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable, because this is a case of *a priori* lack of unity among all species due to their significant structural differences. Currently, claim 1 and 14 are generic. Group I contains claims directed to the following patentably distinct species:

1. Claim 2 and 7
2. Claim 3-4, 15, and 16 (15)
3. Claim 8-9 and 17

Affirmation of this election must be made by applicant in replying to this office action. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even through the requirement be traversed (37 CFR 1.143).
